A. Accounting Practices

The Company has prepared the accompanying statutory financial statements in conformity with accounting practices prescribed or permitted by the State of Nebraska Department of Insurance ("NDOI"). The state of Nebraska has adopted the National Association of Insurance Commissioners' ("NAIC") statutory accounting principles ("NAIC SAP") as the basis of its statutory accounting practices. The Director of the NDOI has the right to permit other specific practices that may deviate from NAIC SAP. The Company does not utilize any permitted practices and there are not any prescribed practices applicable.

The following is a reconciliation of the Company's net income (loss) and capital and surplus between the practices prescribed or permitted by the NDOI and NAIC SAP as of and for the period ended March 31 and December 31:

	SSAP #	F/S Page	F/S Line #	2025	2024

B. Use of Estimates in the Preparation of the Financial Statements

No Change

C. Accounting Policy

The Company used the following accounting policies:

- (1) No Change
- (2) Bonds are stated at amortized cost using the effective yield method, except for certain bonds with an NAIC designation of 6, which are stated at lower of amortized cost or fair value. Exchange Traded Funds, eligible for bond reporting by the NAIC Securities Valuation Office ("SVO Identified Funds-ETFs"), captured within the scope of Statement of Statutory Accounting Principles ("SSAP") No. 26, Bonds ("SSAP No. 26"), are stated at fair value and classified as bonds
- (3) - (5) No Change
- (6) Premiums and discounts on asset-backed securities are amortized using the prospective or retrospective method based on anticipated prepayments from the date of purchase. Changes in estimated cash flows due to changes in estimated prepayments are accounted for using the prospective method for impaired securities and securities valued based on an index, and the retrospective method for all other securities.
- (7) - (13) No Change

D. Going Concern

Management's evaluation of all known and reasonably knowable conditions and events for the Company, as of March 31, 2025, has concluded there are no substantial doubts about the entity's ability to continue as a going concern, or meet its obligations within one year of the financial statement's issuance date.

STATEMENT AS OF MARCH 31, 2025 OF THE Mutual of Omaha Insurance Company

NOTES TO FINANCIAL STATEMENTS

Note 2 Accounting Changes and Corrections of Errors

In August 2023, the NAIC issued revisions to SSAP No. 26, Bonds, and SSAP No. 43, Asset-Backed Securities. The revised guidance updates the definition of a bond, revises the accounting and reporting for bonds, and updates various SSAPs to reflect the revised bond definition. See Note 21C for additional details regarding the impact on the Company's financial statements upon adoption of this guidance on January 1, 2025.

The Company did not have any material corrections of errors in 2025.

During 2024, the Company discovered the following errors, totaling a \$4,574,256 overstatement of aggregate reserve for accident and health contracts (page 3, line 2), overstatement of the increase in aggregate reserve for life and accident and health contracts (page 4, line 19). An error was also discovered within the premium deficiency reserve calculation of the major medical product related to reserve logic and inputs, resulting in a \$6,144,699 understatement of the prior year aggregate reserve for accident and health contracts (Page 3, Line 2) and an understatement of the increase in aggregate reserve for life and accident and health contracts (Page 4, Line 19).

In addition, the Company discovered an error in the long-term care product maximum daily benefit logic used within the disabled and active life reserves calculation, resulting in a \$11,268,620 understatement of the prior year aggregate reserve for accident and health contracts (Page 3, Line 2) and an understatement of the increase in aggregate reserve for life and accident and health contracts (Page 4, Line 19).

The Company did not have any material accounting changes in accounting principles in 2024.

D. Asset-Backed Securities

(1) Prepayment assumptions for asset-backed securities are based on information obtained from brokers or internal estimates based on original term sheets, offer memoranda, historical performance, or other forecasts.

(2) Securities with a recognized other-than-temporary impairment ("OTTI") due to intent to sell, inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost basis:

Not Applicable

(3) Securities with a recognized OTTI due to present value of cash flows expected to be collected is less than the amortized cost basis of the security:

Not Applicable

(4) All impaired asset-backed securities (fair value is less than amortized cost) for which an OTTI has not been recognized in earnings as a realized loss (including securities with a recognized OTTI for non-interest related declines when a non-recognized interest related impairment remains) were as follows:

a) The aggregate amount of unrealized losses:

1. Less than 12 months	\$	6,641,917
2. 12 months or longer		45,055,758

b) The aggregate related fair value of securities with unrealized losses:

1. Less than 12 months	\$	169,913,436
2. 12 months or longer		348,634,663

(5) If the Company does not have the intent to sell and has the ability to retain the asset-backed security until recovery, OTTI is recognized when the present value of future cash flows discounted at the security's effective interest rate is less than the amortized cost basis as of the balance sheet date.

F. Repurchase Agreements Transactions Accounted for as Secured Borrowing

- (1) The Company has repurchase agreements whereby unrelated parties, primarily major brokerage firms, borrow securities from the Company. The Company requires a minimum of 95% of the fair value of the securities loaned at the outset of the contract as collateral. The Company continues to retain control over and receive interest on loaned securities, and accordingly, the repurchase agreement securities continue to be reported as bonds. Cash collateral received is invested in cash equivalents and securities, and the Company records a corresponding liability for the collateral which is included in payable for securities lending on the statutory financial statements.

Note 11 Debt

- A. Capital Notes and All Other Debt

The Company and United of Omaha have been authorized by their Boards of Directors to obtain extensions of credit under their agreements with the Federal Home Loan Bank ("FHLB"). As of March 31, 2025, the Company has no long-term outstanding borrowings from the FHLB and \$100,700,000 short-term outstanding borrowings from the FHLB.

The Company has entered into certain senior unsecured borrowing arrangements disclosed below. As of March 31, 2025, the Company paid a total of \$129,307 commitment fees under these arrangements. Compliance with the requirements of the applicable borrowing arrangements are reported to lenders on a quarterly basis. As of March 31, 2025, the Company has complied with the requirements of these borrowing agreements.

Effective December 29, 2022, the Company entered into an amendment to its senior unsecured five-year credit facility to extend the maturity date of the facility to December 29, 2027. The facility includes letter-of-credit and short-term sub-facilities that allow for an aggregate maximum borrowing of \$300,000,000. The Company may elect to increase the commitment at any time in an amount not to exceed \$100,000,000. There were no outstanding borrowings under this agreement as of March 31, 2025.

Effective March 17, 2023, the Company entered into a \$550,000,000 senior unsecured credit agreement for the purpose of funding the new home office building. The agreement is inclusive of two tranches, Tranche A in the amount of \$450,000,000 with a maturity date of March 17, 2030, and Tranche B in the amount of \$100,000,000 with a maturity date of March 17, 2026, and a one time six month extension. The Company may elect to increase the Tranche A commitment at any time in an amount not to exceed \$50,000,000. There were \$207,800,000 outstanding borrowings under this agreement as of March 31, 2025.

The Company has the following borrowing agreements available from affiliates as of March 31, 2025, which are substantially similar to the agreements held in the prior year, unless otherwise noted.

B. Transfer and Servicing of Financial Assets

(1) The Company has securities lending agreements whereby unrelated parties, primarily large brokerage firms, borrow securities from the Company. The Company requires a minimum of 102% of the fair value of the domestic securities, loaned at the outset of the contract as collateral. The Company continues to retain control over and receive interest on loaned securities, and accordingly, the loaned securities continue to be reported as bonds. The securities loaned are on open terms and can be returned to the Company on the next business day requiring a return of the collateral. Collateral received is invested in cash equivalents and securities, and the Company records a corresponding liability for the collateral which is included in payable for securities lending on the statutory financial statements. The Company cannot access the collateral unless the borrower fails to deliver loaned securities. To further minimize the credit risks related to this securities lending program, the Company regularly monitors the financial condition of counterparties to these agreements and also receives an indemnification from the financial intermediary who structures the transactions.

The Company had securities with a fair value of \$320,566,524 on loan for security lending and \$197,736,133 for repurchased lending under the program as of March 31, 2025. The Company was liable for cash collateral of \$332,853,904 for security lending and \$199,192,299 for repurchased lending as of March 31, 2025. The Company does not hold any security collateral as of March 31, 2025, which is not reflected in the accompanying financial statements. Of the collateral received, the Company has \$74,432,667 in collateral for securities lending and \$44,543,308 in repurchase lending that extends beyond one year from March 31, 2025.

NOTES TO FINANCIAL STATEMENTS

Note 20 Fair Value Measurements

A. Assets and Liabilities Reported at Fair Value or Net Asset Value ("NAV")

Financial assets and liabilities have been categorized into a three-level fair value hierarchy, based on the priority of the inputs to the respective valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to valuation. The input levels are as follows:

Level 1 — Fair value is based on unadjusted quoted prices in active markets that are accessible to the Company for identical assets or liabilities. These generally provide the most reliable evidence and are used to measure fair value whenever available.

Level 2 — Fair value is based on significant inputs that are observable for the asset or liability, either directly or indirectly, through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets and liabilities, quoted market prices in markets that are not active for identical or similar assets or liabilities, and other market observable inputs. Valuations are generally obtained from third-party pricing services for identical or comparable assets or liabilities and validated or determined through use of valuation methodologies using observable market inputs.

Level 3 — Fair value is based on significant unobservable inputs for the asset or liability. These inputs reflect assumptions about what market participants would use in pricing the asset or liability. Prices are determined using valuation methodologies such as option pricing models, discounted cash flow models, and other similar techniques. Fair value for certain investment in qualifying investment funds is approximated by using the fund's NAV per share.

(3) Policy on Transfers into and out of Level 3

Assets and liabilities are transferred into or out of Level 3 when a significant input can no longer be corroborated or can be corroborated with market observable data and are assumed to occur at the beginning of the period. This occurs when market activity decreases or increases related to certain securities and transparency to the underlying inputs is no longer available or can be observed with current pricing.

(4) Inputs and Techniques Used for Level 2 and Level 3 Fair Values

Level 2 Measurements

Preferred Stocks — These securities are principally valued using the market approach. The valuation of these securities is based principally on observable inputs including quoted prices in markets that are not considered active.

Common Stocks — These FHLB capital stocks are only redeemable at par, so the fair value is presumed to be par.

U.S. Corporate — Price determined by an independent third-party source.

Level 3 Measurements

Asset-Backed Securities — These securities are principally valued using the market approach. The valuation of these securities is based primarily on matrix pricing or other similar techniques that utilize inputs that are unobservable or cannot be derived principally from, or corroborated by, observable market data, or are based on independent non-binding broker quotations.

U.S. Corporate — These securities are principally valued using the market and income approaches with significant adjustments that utilize unobservable inputs or cannot be derived principally from, or corroborated by, observable market data, including additional spread adjustments to reflect industry trends or specific credit-related issues. Valuations may be based on independent non-binding broker quotations. The use of independent non-binding broker quotations to value investments generally indicates there is a lack of liquidity or the general lack of transparency to develop the valuation estimates generally causing these investments to be classified in Level 3. Generally, below investment grade privately placed or distressed securities included in this level are valued using discounted cash flow methodologies which rely upon significant, unobservable inputs and inputs that cannot be derived principally from, or corroborated by, observable market data.

Derivative liability	(132,867)	912,275	—	(132,867)	—	—	—

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Bonds — Fair values for bonds, including asset-backed securities, are based on quoted market prices, where available. For bonds for which market values are not readily available, fair values were estimated by the Company using projected future cash flows, current market rates, credit quality, and maturity date.

Cash and Cash Equivalents — The carrying value for cash and other cash equivalents approximates fair value.

Preferred Stocks — Fair values for preferred stocks are based on market value, where available. For preferred stocks for which market values are not available, fair values were estimated by the Company using projected future cash flows, current market rates, credit quality, and maturity date.

Common Stocks - Unaffiliated — These securities are principally valued using the market approach. The valuation of these securities is based principally on observable inputs including quoted prices in active markets.

Mortgage Loans — Fair values for mortgage loans are estimated by discounting expected future cash flows using current interest rates for similar loans with similar credit risk.

Other Invested Assets - Surplus Notes, Capital Notes, Debt Securities that Lack Meaningful Cash Flows — Fair values for other invested assets - surplus notes and other invested assets - capital notes are based on quoted market prices for similar assets or when quoted market prices are available. For debt securities for which market values are not readily available, fair values were estimated by the Company using projected future cash flows, current market rates, credit quality, and maturity date.

Short-term Investments — The carrying value of short-term unsecured revolving credit notes approximates fair value and is included within Level 2 due to the internal nature and with no public market.

Securities Lending Cash Collateral and Payable for Securities Lending — Comprised of U.S. Direct Obligation/Full Faith and Credit Exempt money market instruments, commercial paper, cash, and all highly-liquid debt securities purchased with an original maturity of less than three months. The money market instruments are valued using unadjusted quoted prices in active markets that are accessible for identical assets and are primarily classified as Level 1. If public quotations are not available for commercial paper or debt securities, because of the highly-liquid nature of these assets, the carrying value may be used to approximate fair value.

Derivative Assets and Derivative Liabilities — These derivatives are principally valued using an income approach. The valuation of these securities is based on present value techniques and option pricing models, which utilize significant inputs that may include implied volatility, the swap yield curve, and repurchase rates.

Borrowings and Real Estate Encumbrance — Fair values of long-term FHLB borrowings are estimated by discounting expected future cash flows using current interest rates for debt with comparable terms and included in Level 2. Fair values of short-term FHLB borrowings and other borrowings approximates carrying value and thus is included in Level 1. The carrying value of short-term unsecured revolving credit notes approximates fair value and are included within Level 2 due to the internal nature and with no public market. Fair values of other borrowings, including real estate encumbrances, are deemed to be the same as the carrying value.

Derivative Cash Collateral — Comprised of U.S. Direct Obligation/Full Faith and Credit Exempt money market instruments, commercial paper, cash, and all highly-liquid debt securities purchased with an original maturity of less than three months. The money market instruments are valued using unadjusted quoted prices in active markets that are accessible for identical assets and are primarily classified as Level 1. If public quotations are not available for commercial paper or debt securities, because of the highly-liquid nature of these assets, the carrying value may be used to approximate fair value.

D. Not Practicable to Estimate Fair Value

Type or Class of Financial Instrument	Carrying Value	Effective Interest Rate	Maturity Date	Explanation
Preferred stocks	\$ 6,294,355			It is not practicable to measure the fair value in certain private preferred stock.

E. The Company has one investment measured using the NAV as a practical expedient pursuant to SSAP No. 100, Fair Value. The investment's NAV per share is \$3,694. Lion Industrial Trust makes real estate value added investments in the industrial sector. If there is a liquidation of the underlying assets, the period of time for assets to be liquidated will be longer than a year. The Company has no unfunded commitments related to the investment. An investor may redeem assets on a quarterly basis with a 90 day notice period. No other significant restrictions exist on the ability to sell investment at the measurement date.

On March 6, 2025, the Board of Directors of Mutual of Omaha approved and adopted a Plan of Reorganization providing for the reorganization of the Company into a mutual holding company structure as authorized by the Nebraska Mutual Insurance Holding Company Act. As part of the reorganization, Mutual of Omaha will become a stock insurer whose shares will be held indirectly by Mutual of Omaha Holding Company ("MHC"), a to be formed Nebraska mutual insurance holding company. Upon the effectiveness of the reorganization, the members of the Company will become members of MHC. At this time, the Company intends to file an application with the Nebraska Director of Insurance seeking approval of the Plan of Reorganization. Subject to confirmation by the Nebraska Director of Insurance, the Plan of Reorganization is subject to and expressly contingent upon the approval of at least two-thirds of the eligible members of Mutual of Omaha voting in person or by proxy at a meeting of the Company's members. United of Omaha will remain a stock insurance company and wholly owned subsidiary of Mutual of Omaha.

The Company had no other changes to Note 21C.
