Mutual of Omaha Rx (PDP) 2024 Formulary (List of Covered Drugs)

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION
ABOUT THE DRUGS WE COVER IN THIS PLAN**

Formulary ID Number: 24218, Version 10

This formulary was updated on 3/22/2024. For more recent information or other questions, please contact **Mutual of Omaha RxSM** (PDP) Customer Service at **1.855.864.6797** or, for TTY users, **1.800.716.3231**, 24 hours a day, 7 days a week, or visit **mutualofomaharx.com**.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us,” or “our,” it means Omaha Health Insurance Company (Omaha Life and Health Insurance Company in California). When it refers to “plan” or “our plan,” it means Mutual of Omaha Rx.

This document includes a list of the drugs (formulary) for our plan, which is current as of March 22, 2024. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network and/or copayments/coinsurance may change on January 1, 2025, and from time to time during the year.

What is the Mutual of Omaha Rx Formulary?

A formulary is a list of covered drugs selected by Mutual of Omaha Rx in consultation with a team of healthcare providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Mutual of Omaha Rx will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Mutual of Omaha Rx network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your *Evidence of Coverage*.

Can the formulary (drug list) change?

Most changes in drug coverage happen on January 1, but Mutual of Omaha Rx may add or remove drugs on the Drug List during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow Medicare rules in making these changes.

Changes that can affect you this year: In the cases below, you will be affected by coverage changes during the year:

- **New generic drugs.** We may immediately remove a brand-name drug on our Drug List if we are replacing it with a new generic drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand-name drug on our Drug List, but immediately move it to a different cost-sharing tier or add new restrictions. If you are currently taking that brand-name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.
 - If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand-name drug for you. The notice we provide you will also include information on how to request an exception, and you can find information in the section below entitled “How do I request an exception to the Mutual of Omaha Rx Formulary?”
- **Drugs removed from the market.** If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug’s manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may add a generic drug that is not new to the market to replace a brand-name drug currently on the formulary; or add new restrictions to the brand-name drug or move it to a different cost-sharing tier or both. Or we may make changes based on new clinical guidelines. If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 30-day supply of the drug.
 - If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand-name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the Mutual of Omaha Rx Formulary?”

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2024 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2024 coverage year except as described above. This means these

drugs will remain available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the Drug List for the new benefit year for any changes to drugs.

The enclosed formulary is current as of March 22, 2024. To get updated information about the drugs covered by Mutual of Omaha Rx, please contact us. Our contact information appears on the front and back cover pages. If there are additional changes made to the formulary that affect you and are not mentioned above, you will be notified in writing of these changes within a reasonable period of time from when the changes are made.

How do I use the formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category “Cardiovascular, Hypertension/Lipids.” If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 72. The Index provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Mutual of Omaha Rx covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Mutual of Omaha Rx requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from Mutual of Omaha Rx before you fill your prescriptions. If you don't get approval, Mutual of Omaha Rx may not cover the drug.
- **Quantity Limits:** For certain drugs, Mutual of Omaha Rx limits the amount of the drug that Mutual of Omaha Rx will cover. For example, Mutual of Omaha Rx provides 30 tablets for a 1-month supply per prescription for *atorvastatin*. This may be in addition to a standard 1-month or 3-month supply.
- **Step Therapy:** In some cases, Mutual of Omaha Rx requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if

Drug A and Drug B both treat your medical condition, Mutual of Omaha Rx may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Mutual of Omaha Rx will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask Mutual of Omaha Rx to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section “How do I request an exception to the Mutual of Omaha Rx Formulary?” below for information about how to request an exception.

What if my drug is not on the formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Customer Service and ask if your drug is covered.

If you learn that Mutual of Omaha Rx does not cover your drug, you have two options:

- You can ask Customer Service for a list of similar drugs that are covered by Mutual of Omaha Rx. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by Mutual of Omaha Rx.
- You can ask Mutual of Omaha Rx to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Mutual of Omaha Rx Formulary?

You can ask Mutual of Omaha Rx to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved, this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Mutual of Omaha Rx limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, Mutual of Omaha Rx will only approve your request for an exception if the alternative drugs included on the plan’s formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tiering or utilization restriction exception. **When you request a formulary, tiering or utilization restriction exception, you should submit a statement from your prescriber or physician supporting your request.** Generally,

we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believes that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan, you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply of medication. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary, or if your ability to get your drugs is limited but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

Other times when we will cover a temporary 30-day transition supply (or less, if you have a prescription written for fewer days) include:

- When you leave a long-term care facility
- When you are discharged from a hospital
- When you leave a skilled nursing facility
- When you cancel hospice care
- When you are discharged from a psychiatric hospital with a medication regimen that is highly individualized

If you are entering a long-term care facility, we will cover a 31-day transition supply.

The plan will send you a letter within 3 business days of your filling a temporary transition supply, notifying you that this was a temporary supply and explaining your options.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1.800.MEDICARE (1.800.633.4227, 24 hours a day, 7 days a week. TTY users should call 1.877.486.2048. Or, visit <http://www.medicare.gov>.

Mutual of Omaha Rx's Formulary

The formulary that begins on page 1 provides coverage information about the drugs covered by Mutual of Omaha Rx. If you have trouble finding your drug in the list, turn to the Index that begins on page 72.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., JANUMET®) and generic drugs are listed in lowercase italics (e.g., *omeprazole*).

The information in the Requirements/Limits column tells you if Mutual of Omaha Rx has any special requirements for coverage of your drug.

\$0 VAX: Zero dollar vaccines. These vaccines are covered at a \$0 cost to you, when all formulary criteria are met. This also includes the dispensing fee cost (if any).

B/D PA: Part B or Part D Prior Authorization. This drug may be covered under Medicare Part B or Part D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.

HRM: High-Risk Medication. These medications will require prior authorization for patients 65 years of age or older. Medical experts have determined that these drugs may cause more side effects in those patients. If you are 65 or over and taking one or more of these drugs, ask your doctor if there are safer alternatives available.

LA: Limited Availability. This prescription may be available only at certain pharmacies. For more information, consult the *Pharmacy Directory* or call Customer Service at **1.855.864.6797**, 24 hours a day, 7 days a week. TTY users should call **1.800.716.3231**, or visit **mutualofomaharx.com**.

MO: Mail-Order Drug. This prescription drug is available through our home delivery pharmacy service, as well as through our retail network pharmacies. Consider using mail order for your long-term medications (the kind you take regularly, such as high blood pressure medications). Retail network pharmacies may be more appropriate for short-term prescriptions (such as antibiotics).

PA: Prior Authorization. The plan requires you or your doctor to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescription. If you don't get approval, we may not cover the drug.

QL: Quantity Limit. For certain drugs, the plan limits the amount of the drug that we will cover.

ST: Step Therapy. In some cases, the plan requires you to first try a certain drug to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

Your costs

The amount you pay for a covered drug will depend on:

- **Your coverage stage.** Mutual of Omaha Rx has different stages of coverage. In each stage, the amount you pay for a drug may change.

- **The drug tier for your drug.** Each covered drug is in one of five drug tiers. Each tier may have a different copayment or coinsurance amount. The “Drug Tiers” chart below explains what types of drugs are included in each tier and shows how costs may change with each tier.

The *Evidence of Coverage* has more information about the plan’s coverage stages and lists the copayment and coinsurance amounts for each tier.

If you qualify for Extra Help

If you qualify for Extra Help for your prescription drugs, your copayments and coinsurance may be lower. Please refer to the “*Evidence of Coverage Rider for People Who Get Extra Help Paying for Prescription Drugs (LIS Rider)*” to find out what your costs are or you may contact Customer Service for more information.

Drug Tiers

Tier	Description
Tier 1: Preferred Generic Drugs	This tier includes commonly prescribed generic drugs. Use Tier 1 drugs for the lowest copayments.
Tier 2: Generic Drugs	This tier includes generic drugs. Use Tier 2 drugs to keep your copayments low.
Tier 3: Preferred Brand Drugs	This tier includes most of the plan’s covered insulins, preferred brand-name drugs as well as generic drugs. Drugs in this tier will generally have lower copayments than non-preferred drugs.
Tier 4: Non-Preferred Drugs	This tier includes non-preferred brand-name drugs as well as generic drugs. There may be lower-cost alternatives for you. Ask your doctor if switching to a lower-cost generic or preferred brand drug may be right for you. Drugs in this tier are limited to up to a 30-day supply from either your local retail network pharmacy or from our network home delivery service.
Tier 5: Specialty Tier Drugs	This tier includes very high-cost brand-name and generic drugs. To learn more about medications in this tier, you may contact a pharmacist at the numbers listed on the front and back covers of this document. Drugs in this tier are limited to up to a 30-day supply from either your local retail network pharmacy or from our network home delivery service.
